Centralina Jetprime

JETPRIME POWER MODULE

Jetprime consente di cambiare il rapporto di carburazione indipendentemente da ciò che è stato imposto dalla casa costruttrice, andando a modificare l'intervallo di tempo in cui gli iniettori restano aperti nella fase di aspirazione.

Jetprime allows you to change the fuel ratio independently from the setting set by the motorcycle manufacturer by modifying the interval in which the injectors remain open during the air intake phase.

Centralina Memjet EVO

MEMJET EVO POWER MODULE

La centralina aggiuntiva Memjet Evo è progettata per migliorare le prestazioni delle moto a iniezione. Ha la particolarità di andare ad agire su alcuni dei sensori che si trovano già sulla vostra moto modificandone i valori in uscita, con il vantaggio che non avrete una centralina aggiuntiva da rimappare.

The Memjet Evo was designed to improve the performance of all motorcycles using an injection engine system. It works by using the sensors which are already on the bike changing the output values giving you the advantage that a remapping will not be required.

Centralina O2xyMETT

OXYMETT OXYGEN SENSOR SIMULATOR

Emulatore di sonde lambda O2xymett. Arrestando l'attività delle sonde, evita un eccessivo smagrimento della carburazione.

The O2xyMETT is an oxygen sensor simulator designed to prevent the bike from running excessively lean.

Da notare:

La versione stradale ha tutte le funzioni che servono per la strada (frece, clacson, abbaglianti).

La versione da pista ha solo le funzioni racing

Le pulsantiere del lato sinistro sono disponibili con 5 o 7 pulsanti (in base del modello).

Le pulsantiere del lato destro sono disponibili con 3 pulsanti.

I codici ACC50 e ACC60 sono i cover del commutatore.

Please note

The road version has all of the functions needed for road use (indicators, horn, headlights).

The race version has only race functions.

The left side button control units are available in either 5 or 7 button versions (depending on the bike model).

The right side button control unit is available in a 3 button version.

The codes ACC50 and ACC60 are right handle switch cover units.
